themes, plugins, WooCommerce, WP-CLI, REST API

Front-end
HTML5, CSS3, JavaScript, Bootstrap

Servers
Ubuntu/Debian, Nginx, Apache, PHP-FPM, MySQL

DevOps
Git/GitHub, CI/CD, Docker, FastAPI, automation

ISP Ops
Routing/switching, bandwidth, monitoring, SLAs

SUMMARY

Senior Developer, ISP Operations Manager, and AI Solutions Engineer with 10+ years across web development, Linux server administration, internet service operations, and AI/LLM engineering. Built 30+ WordPress platforms, deployed LLM pipelines at scale, and led network operations.

EXPERIENCE

Operations Manager — ISP
2023 – Present

BrainPr Internet Technology OPC Pvt Ltd — Hyderabad

- Lead ISP operations — network uptime, bandwidth management, customer support SLAs
- Oversee infrastructure: routing, switching, fiber/radio links, monitoring & alerting
- Manage technical team, service provisioning, and expansion planning

Senior Developer
2019 – 2023

30Shades

- Senior developer on client web platforms — WordPress, PHP, custom plugin/theme builds
- Led deployments, performance tuning, and security hardening for production sites
- Collaborated on architecture, code review, and release pipelines

AI Solutions Engineer
2022 – Present

Freelance / Side Projects

- Built custom GPT-4/Claude pipelines for content generation, summarisation, and code assistance
- Integrated LangChain + Llama.cpp for low-latency local inference on edge devices
- Deployed AI micro-services (FastAPI, Docker) behind Cloudflare Tunnel for secure remote access
- Optimised token usage and cost-aware prompting (Claude-instant, GPT-4-turbo) for high-throughput workloads
- Built multi-provider AI routers (OpenRouter, OpenCode, Kilo) with auto-failover and per-task model routing

Freelance WordPress Developer & Server Admin
2015 – Present

Independent

- 30+ sites: business, e-commerce, blogs — WooCommerce, WP-CLI, REST API
- VPS administration: Ubuntu, Nginx/Apache, PHP-FPM, MySQL, SSL, backups, monitoring
